+++

One of the signature symptoms for Morgellons disease sufferers, and why it is nicknamed the fiber disease, is indeed due to the presentation of various colored fibers either on or within the skin tissue. Most commonly, the reports state that red, blue, white, and black fibers have been collected from a rash, pimple, or lesion. In some cases they are reported as coming to the surface of the skin and 'shedding' after bathing in various sulfur, essential oil, or oxygen bath therapies. One particular individual reported that she was 'snowing' a type of white fluffy ball of very light texture.

There are such a wide range of stories from sufferers about these fibers moving, growing, or floating away; they can appear to be small compact specs or look like small pieces of black monofilament fishing line. Some folks report these fibers seem to self manifest or gather around electronic equipment and appliances. More alarming questions are posed, if they can float off to another person, then what? Are they 'dangerous/contagious'? All of this has only intensified the other emotional and physical difficulties also associated with this condition, as these questions are circulating around the internet unanswered from our medical authorities.

There is very little main stream media coverage reporting on Morgellons, this unexplained dermatopathy, that is of any real value. Most care givers say they have no conclusive answers. However, Dr. Staninger has been collecting data and specimens in the field since 2006. Over the last 4 years, a consistent pattern has been revealed from her research. She has recommended that to really understand the scope of this discovery, we need to take a quick read on [Nanotechnology For Dummies](http://www.amazon.com/gp/product/0764583689?ie=UTF8&tag=wwwhealinggra-20&linkCode=as2&camp=1789&creative=9325&creativeASIN=0764583689) (<http://www.amazon.com/gp/product/0764583689?ie=UTF8&tag=wwwhealinggra-20&linkCode=as2&camp=1789&creative=9325&creativeASIN=0764583689>).

([https://blessedistruth.files.wordpress.com/2011/07/rfid-](https://blessedistruth.files.wordpress.com/2011/07/rfid-nano_anchors.jpg)

[nano\\_anchors.jpg](#))

This Morgellons fiber pictured on left is the result of a specimen collected from one of Dr. Staninger's patients. The specimen was sent to Applied Consumer Service, Inc. laboratory for analysis.

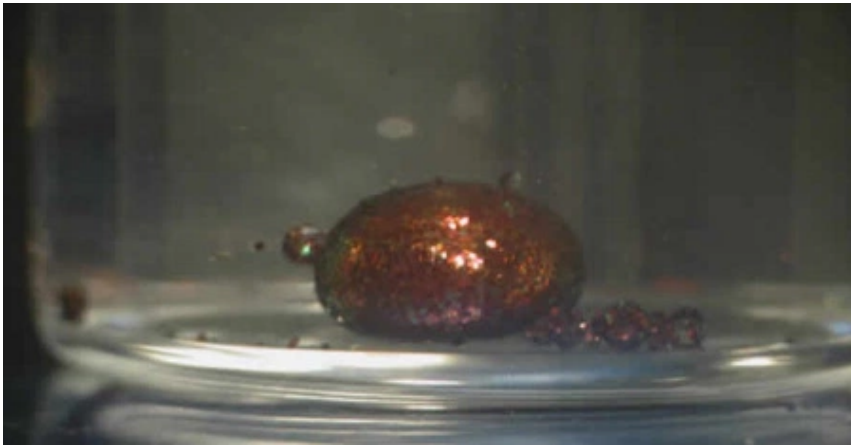

This type of nanotechnology was isolated from an individual who was shedding black specs with a clear plastic margin around the specimen. While the chemist was using a dissecting needle to align specimen on slide for photo micrograph, the static charge from the needle caused the original black spec to unfold into 4 distinct fibers.

With further analysis utilizing Micro FTIR technologies, four specific analysis showed high density polyethylene, acrylonitriles, cotton, and polyesters. This is a high density polyethylene, dacron, acrylin, and cotton with a red dye (56 letters long) called 2-(5-Bromo-2 pyridylazo)-5[N-n-propyl-N-(3-sulfopropyl)amino]aniline, sodium salt. This particular nano material is called a nano-anchor.

From Dr. Staninger's report titled "Smart Dust and Its Global Environmental Impact" (1) she states:

In the December 20, 2009, issue of Nature Nanotechnology, it was stated that scientists at the U.S. Department of Energy's Brookhaven National Laboratory have found **a new way to use a synthetic form of DNA to control the assembly of nano-particles** – this time resulting in switchable, three-dimensional, and small-cluster structures that might be useful, for example, as bio-sensors, in solar cells and as new materials for data storage.

The Brookhaven team, lead by physicist Oleg Gang, has been refining techniques to use strands of artificial DNA as a highly specific kind of Velcro, or glue, to link up nano-particles, thus creating "smart glue." These same techniques have been applied to the new Harvard-designed DNA folding protein origami technologies to compress multiple materials into a single "smart dust platform."

([https://blessedistruth.files.wordpress.com/2011/07/rfid-integration\\_of\\_nanotechs1.jpg](https://blessedistruth.files.wordpress.com/2011/07/rfid-integration_of_nanotechs1.jpg))

Pictured left is the integration of Nasal Sensory Technology, Sencil™, Smart Dust and Crystal Motes. In September 2009, a specimen was isolated from the platform scaffolding technology of nasal sensory technology that was utilized in the coupling of Sencil™ technology, smart dust/crystals and the utilization of mass population in selected cities to monitor their environment (remotely).

The specimen was isolated from the nasal bulb of a female who was exposed to aerial spraying during September 2009 in Los Angeles, CA. It was also documented by the individual that continual EMF or RFID frequencies were being emitted at specific times and frequencies, thus confirming the application of remote motes stimulating the growth of advanced nano materials into specific nanomachines, nanorobots, or other similar tools/devices.

Putting this into layman terms: According to Dr. Staninger, these advanced nano materials are able to assemble, like tiny transformers, and combine with other nano materials to create tools and devices. These devices can be turned on with the flip of a switch, via EMF and RFID (Electro Magnetic Frequencies and Radio Frequency Identification Tags), that can transmit or receive information about the environment it is in, including the 'host'. Presently, RFID tags are commonly used to track commuters passing through toll booths. Also, ranchers often use RFID tags on cattle to track their progress from the fields to the processing plants. The possible uses for this technology are almost limitless.

The following slides are all part of the extensive data analysis she has been diligently archiving so we can have real answers.

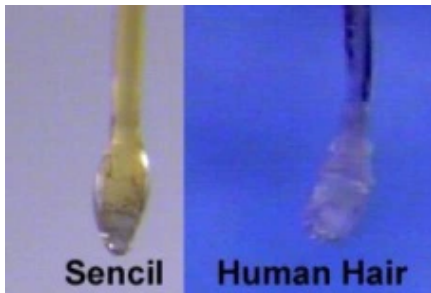

([https://blessedistruth.files.wordpress.com/2011/07/rfid-sencil\\_field\\_specimen.jpg](https://blessedistruth.files.wordpress.com/2011/07/rfid-sencil_field_specimen.jpg))

The picture on left is a Nano-Light Emitting Diode from Sencil™ Technology as found in the Field from a Female After Exposure to Aerial Spraying, Los Angeles, September 2009. Certain materials – some semiconductors for example – can be stimulated to emit photons. The LED (light-emitting diode) is a common example of this kind of technology.

<https://blessedistruth.files.wordpress.com/2011/07/rfid-silanananocomposite1.jpg>

Picture on left is Silane Based Nano Composite Material (2 polymeric materials and silicone head) the same makeup as the Sencil™ Hair. This plastic hair has been reported to grow in place of human hair for many in the Morgellons community.

<https://blessedistruth.files.wordpress.com/2011/07/rfid-sencil-human.jpg>

AWARENESS IS GROWING, BUT NOT FAST ENOUGH.

At a recent technology show in Chicago, crowds of protesters showed up to picket the show, citing privacy concerns as the basis for their protest. Interviews with the protesters expressed their concern that in this age of combating terrorism, our privacy is often sacrificed in the name of safety.

This technology can be used to track people just as well as it tracks products. We already have the skin implant that is currently used to track and identify pets, RFID tags can be used to track the location, behavioral movements, and travel patterns of those suspected of committing crimes. Does this sound like the movie “Minority Report” or Orwell’s “1984”? And now this RFID technology can ‘turn on’ advance nano materials that are in our tissues as well.

In conclusion: **What does the laboratory analysis reveal is the makeup of the Morgellons fibers?**

As an industrial toxicologist, Dr. Staninger not only maps the make up and composition of hazardous materials, she also connects the dots as to where any hazardous material is coming from. This is the nature and aspect of her field as an industrial toxicologist.

Starting in 2006, Dr. Staninger has collected samples of fibers and other materials from 24 participants, located in various global locations. All 24 participants reported to have anomalous Morgellons-like symptoms. The samples were sent to Dr. Hildegard Staninger (Integrative Health Systems, LLC), and analyzed by four (4)

independent laboratories. Initial findings determine that the fibers are silicone based with a two part polyester resin of acryolin and methylmethacrylates. **The findings also reveal no biological substances are present.**

Subsequent findings from these and additional samples taken from individuals within a wide geographical area of distribution **all indicate the presence of and exposure to advanced nano materials** (nanotechnology manufactured materials). The nano materials are found to contain elements of patented weapons-grade nano materials. These weapons grade nano technologies are found in fibers removed from lesions in humans, as well as in fibrous “cotton candy” like material collected on the ground and observed floating down through the sky after aerial spraying operations in Texas, USA.

Dr. Staninger prefers to call Morgellons disease an advanced nano material syndrome. Toxicology is the study of the nature and action of chemical substances on living systems. Industrial Toxicology tracks down the source of poisoning and the industries where it occurs, or as she likes to say, “Dr. Staninger is my name and poison is my game.”

*The following is WAY out there! My life has never been stranger, so may as well have a look!*

*This writer speaks to "micro-chipping." It would seem these sinners have found another method(s).*  
(<http://www.illuminati-news.com/RFID.htm>)

The Radio Frequency IDentification (RFID) Method (<http://www.illuminati-news.com/RFID.htm>)

<http://www.illuminati-news.com/RFID.htm> (<http://www.illuminati-news.com/RFID.htm>)

The reason the Illuminati go through all this effort to have us chipped fills a greater purpose. As much as many people are afraid of THEM, THEY are terrified of us! (<http://www.illuminati-news.com/RFID.htm>)

Not so much that we should revolt and kill them as we should develop spiritually.

They are horrified that we should raise to a higher spiritual level where we can see the whole truth and escape from the prison and fight them on a spiritual level.

When a person regains spiritual knowledge, he/she starts vibrating on a higher FREQUENCY, and this is how we reach higher dimensions and densities.

Now get this: THE MICROCHIPPING THEY ARE PLANNING WILL ONCE AND FOR ALL KEEP US ON A LOW VIBRATION LEVEL; THEY ARE DESIGNED THAT WAY!

This means that we can't develop spiritually and we remain stuck in the Illuminati's low vibration prison where pain, suffer and terror are the three main characteristics.

*[I'll say it, again. If there's any truth to be found here, perhaps the most "godly" thing to do is ... WWJD? EVOLVE!]*

<http://www.biblegateway.com/passage/?search=Psalm+59%3A8-17&version=KJV>

Psalms 59:8-17

King James Version (KJV)

8But thou, O LORD, shalt laugh at them; thou shalt have all the heathen in derision.

9Because of his strength will I wait upon thee: for God is my defence.

10The God of my mercy shall prevent me: God shall let me see my desire upon mine enemies.

11Slay them not, lest my people forget: scatter them by thy power; and bring them down, O Lord our shield.

12For the sin of their mouth and the words of their lips let them even be taken in their pride: and for cursing and lying which they speak.

13Consume them in wrath, consume them, that they may not be: and let them know that God ruleth in Jacob unto the ends of the earth. Selah.

14And at evening let them return; and let them make a noise like a dog, and go round about the city.

15Let them wander up and down for meat, and grudge if they be not satisfied.

16But I will sing of thy power; yea, I will sing aloud of thy mercy in the morning: for thou hast been my defence and refuge in the day of my trouble.

17Unto thee, O my strength, will I sing: for God is my defence, and the God of my mercy.

Report: Obama and Boehner Nearing Framework for Grand Bargain

<http://news.firedoglake.com/2011/07/21/report-obama-and-boehner-nearing-framework-for-grand-bargain/>

You now have Senators invested in the Gang of Six process who want to make room for it.

Kent Conrad called for a six-month increase in the debt limit to buy time for the Gang of Six plan.

Others have more short-term extension ideas.

Still others want to attach the Gang of Six to McConnell-Reid.

At this point, the more ideas there are, the less of a chance for an agreement.

The Gang of Six plan adds to what's out there and pushes people away from any consensus solution.

Default is a bigger possibility as a result.

That's unless Obama and Boehner swoop in with some right-wing proposal to save the day, and the President puts the screws to his party and says they will be blamed for catastrophe if they don't go along.

[Well, I don't agree. Can they agree on something which an equal number of Dems and Repubs can vote for? Because whatever passes, those who vote nay will be blamed, at least by Independents.]

Abstract

There is an environmental disease on the horizon that will affect more humans and the environment than any one person will know. Its environmental impact will be far greater than DDT, PCBs and asbestos have ever been. It is called Morgellon's: A Nano-911 Foreign Invader.

It has many names:

fiber disease

mystery disease

delusional parasitosis

unknown dermatological skin disorder,

...to name a few.

It is silent, smart, glistening powered by its own transitional metal battery. And when it strikes its victim it feels like a piece of burning broken glass as it pierces the skin. Smaller than any of the 150 pieces of a virus (known as virions), it is invisible to the naked eye. So silent is it, only the one who has been invaded knows its true nature.

Marked with the seal of man-made, self-assembling nano-size materials they can be used in forming drugs, pharmaceuticals, chemicals, biomaterials, artificial nerves, artificial brains, pseudo skin and molecular electronics. Yes, it was patterned after nature's many wonders, but it is still one hundred percent man-made.

The nano-brew has been let loose from its scientific flask casting its woes upon an unsuspecting innocence.

**blessedistruth** Says:

"powered by its own transitional metal battery"

Incredible!

**blessedistruth** Says:

July 21, 2011 at 7:30 pm | [Reply](#)

How can something so small be so harmful to humans?

The nano material, which has many forms such as smart dust, nano gels, quantum dots, nano tube, nano wire, nano bots, nano horns are all part of the growing field of nanotechnology. If something is so small that it does not stimulate the immune system to react to its foreign invasion of the cell, new cellular toxicological reactions will occur. Collectively these materials were found in specimens taken from the same patient who had the knee replacement operation. The individual had blue fibers that would not burn at 1,400 degrees F and harden gels that made lesions. The callus-like scab had cat-like claws on its underside.

In a nutshell she states, these nano advanced materials are 100% manmade. They come into the body without stimulating the immune system and within the digestive tract these particles literally assemble by using our body materials to make its network of fibers.

Most importantly, Dr. Staninger is full speed ahead when it comes to her Morgellons treatment and laboratory analysis; mapping the health complications like nutritional deficiencies associated with disease, and most importantly her documentation on FIR therapy.

Here is a description of Morgellons Disease:

Morgellons Disease – April 2007

“A communicable nanotechnology invasion of human tissues in the form of self-assembling, self-replicating nanotubes, nanowires, nanoarrays with sensors, and other nano configurations, some carrying genetically-altered and spliced DNA/RNA.

These nano machines thrive in extreme alkaline ph conditions and use the body's bio-electric energy and other (unidentified) elements for power.

(People should \*not\* strive for an acidic ph – they should work for a normal pH of 7.5 +/-).

There is some evidence these tiny machines possess their own internal batteries.

They are also believed to be able to receive specific tuned microwave, EMF and ELF signals and information. To what end is not known.

The symptoms vary from open skin lesions from which colored or plain fibers emerge, which do not scab normally, heal extremely slowly and never become bacterially-infected — to brain fog, fatigue and depression, etc.

It is also established that Morgellons nano machines are commonly found in all body fluids, orifices and often even hair follicles, and are believed to routinely achieve total body systemic penetration.

It is reported by nearly all afflicted that Morgellons nano machines seem to have some kind of hive or 'group intelligence.'

Communicability appears to be possible/probable through shedding of the fibers by the infected and through all normal bacterial or viral vectors.

Some fibers have been shown to withstand temperatures in excess of 1400 F, routine sterilization for Morgellons nano machines in all reusable medical/dental medical equipment and instruments is moot.

There is also strong evidence linking Chemtrail aerosol fibers to Morgellons fibers although proof of transmission through aerial spraying remains anecdotal."

"from open skin lesions from which colored or plain fibers emerge, which do not scab normally, heal extremely slowly and never become bacterially-infected"

Yes, but I believe Dr. Amin on to something

nervous system disease -> skin lesions -> opportunistic parasites

So both camps are right – nano man-made machines AND parasitic infestation (BOTH man-made AND natural parasites, if you will.)

BUT what is/are the delivery system(s)? How did these nano-machines get into our bodies?

Chem trails? GMO foods? Even the natural parasites have been modified. ALL LIFE has been modified.

Our FOOD CHAIN has been modified.

Smart Dust? RFID?

People are afraid of getting micro-chipped. But what if we've ALL already been "chipped" with these fibers which have already assembled in our bodies?

Rose

(I keep hearing Dan Burisch say "gene change later." But for what end? Some say to stop our species from evolving. We cannot let this happen.)

(I know chem trails are real. Some have said more than one reason for being sprayed. But we ought to be represented by civilians who will actually control the military. Or shadow government. Or whoever is orchestrating this.)

Let them win. Or win.

I choose the latter, and God is on my side.

The range and depth of this corruption moves much farther than the world knows. Thanks for sending this to me DR. Mike.

I wish to acknowledge a few people in their work to expose truth to the world, which only now is reaching higher numbers by alternative media gaining attention to the open minds of youth who now have to try and live in a world we have yet to build.

We must yell louder than the main stream media.

First I begin with my good friend Dr. Michael Castle, who has been the first person with Doctor to his name, as being one I can actually TRUST. I told him so in my very first of countless emails with him.

His original contacts ( I apologize for missing some of you), that have helped to educate us.

Dr. Hildegard Staninger, Cliff Carnicom the foremost world authority by visits from the military industrial complex, who sums up this evil in a word...CONTROL... nicely said Cliff,

ND Gwen Scott, Dr Castle's co-researcher Author William Thomas who coined the term Chemtrails which I believe originated in a military classroom of instruction.

Author Paul Grignon who made the first chemtrail video, to be followed now by countless other videos, web sites and growing, Dr. Nick Begich who published materials for William Thomas, and the art we all know and love, by the growing fame of Mr. David Dee.

A local long term supporter here in Ontario Mr. G. Brian Holmes, whom I failed to meet when I got to Penetanguishene in my former capacity as an energy advisor.

He has a great web site called holmstead.ca

And sorry folks but as I write this, the firmament is as criss cross as ever today in SW Ontario.

Thank you all for your selfless contribution to humanity, and to the growing numbers who at personal sacrifice built their web sites, did their speaking tours, performed research and investigations, scientific research work, and

yes, even the covert stuff which now gains popular momentum from people like Govenor Jessie Ventura. Get em soldier.

Many is the suffering vet who says thanks, and though my family is not unscathed, I still have my own home and family, but as a vet and a christian I say thanks to all of you.

As for my Christian standing which has not always stood close examination.

My highest praise goes to he who sacrifices much, DR William Deagle. For the light of your leadership sir.

I am proud to know such men and women. If not in person, then by their inspirational work.

In light of the truth I prayed for, my prayer was answered, as evidenced by what I have learned by all of you and many more this comment can't provide room for.

I have begun my two cents, because my belief requires me to speak against the evil I see that it is brought into the light.

I call it The Blogathon Philebuster, as authorthat.wordpress.com.

The right to talk your face off about the injustice in the world, so long as I am able to do so.

Critics of the above calibur to straighten me out are always welcome, since I will always make mistakes.

Title : Tales

By: Uriah Heep

From: The Magician's Birthday (1972)

INTRO [w/Pedal Steel Guitar]

1 2 3 4 1 2 3 4 1

//////////...

Am Em G Am Em G Am

VERSE 1

Am Em G

We told our tales as we

Am Em G

sat under mornin's sleepy

Am Em G

sky

Am Em G

Am Em G

Am Em G

With all the colours of the

Am Em G

sunrise shining in our

Am Em G

eyes

Am Em G  
Am Em G

F Em G  
One, then another with a  
F Em G  
story of yesterday's  
Am Em G  
lives

Am Em G  
Am Em G

F Em G  
or of a lover who had  
F Em G  
gone in a moment of  
Am Em G  
strife

[Pedal Steel Guitar solo over the same chords]

## VERSE 2

Am Em G  
No thought of sleep ever  
Am Em G  
dwells upon the wise man's  
Am Em G  
mind

Am Em G  
Am Em G

Am Em G  
Some task or audience  
Am Em G  
stealing every moment of his  
Am Em G  
time

Am Em G  
Am Em G

F Em G  
Thus we have learned to live while  
F Em G  
mortal man lies waiting to  
Am Em G  
die

Am Em G  
Am Em G

F Em G  
How can we do what must be  
F Em G  
done in just one short  
Am Em G  
life?

#### BRIDGE

C#m  
And if you ask, then you should  
Ab  
know, if you still doubt you should be  
F  
told, it was not we that made it  
Ab  
so, it was by those who went  
Am  
before...

Am Em G  
Am Em G

#### CHORUS

Am Em G  
And there you sit tomorrow's  
Am Em G  
child, so full of love so full of  
Am Em G  
life, but you must rise to meet the  
Am Em G  
day, lest you become another  
Am Em G  
tale, and there you sit tomorrow's ...(repeat CHORUS and FADE)

+++

BTW if you click on green arrow, will link to page for that song.

News from the Left Banke

<http://news.firedoglake.com/2011/07/22/reports-affordable-care-act-part-of-debt-limit-deal/>

But there has been reporting that the trigger on the Bush tax cuts has been dropped, which means the revenue would be totally aspirational. That's what riled Senate Democrats yesterday.

Some people may see this as just an end to the mandate, and not be all that concerned about it. I seriously doubt it would stop there.

A separate report said that not only would the Administration consider the blended rate proposal for Medicaid, which would lower federal participation, they would rewrite the rule that funded almost all of the Medicaid expansion over the next five years.

This would almost certainly result in far less enrollees under Medicaid than envisioned in the ACA.

And half of the ACA's coverage expansions come from Medicaid.

So this would be not just a gutting of the mandate, but a gutting of the whole law, including its most valuable portions.

I find it hard to believe that, in pursuit of a big deal, the President would undercut the only signature law he passed in his first term.

[I hope they agree on something that BOTH centrist Dems and Repubs can vote for, Gang of 60? six-tenths of the House?]

Uploaded by jabberskywatcher on Mar 30, 2011

Late this afternoon, I was outdoors and I was checking out the sky and the air quality looked very poor. My sister had told me in the morning that she saw "dry rain" coming down...I looked and I saw lots of white stuff in the air. But I wasn't prepared for what my camera caught coming down from the sky. Some of this could be pollen.....but it looks fiber like, and I've seen this before when its not high pollen season. I also find many "stringy fibery things" all over the outdoor plants on days like today...and I saw that this morning also. Is this "fallout" from the aerosol spray planes that spray the lines in the sky....some say yes it is. And that it is smart dust or polymer fibers coming down, along with heavy metals like aluminum and barium. for more info:....[www.carnicom.com](http://www.carnicom.com) also watch "What in the World Are They Spraying" on you tube. check out <http://www.stopgeoengineering.org> WE IN PHOENIX HAVE A THEFT OF SUNLIGHT! We now live in a cloudy desert. Thanks to the illegal geoengineering, planet wide....spread the word. Do we want to breathe this? Our kids? Any living thing????

I do not arrive at same conclusions ella does, but no doubt she's being harrassed. Probably MILAB victim, too.

BTW some of these fake planes are friendly, too.

At least that's been my experience.

Look, real or fake, there's an intelligence behind what is being projected.

But ... at times it feels like a recording that is "triggered" somehow.

Bottom line ... we can't believe our own eyes.

But ... real planes really are spraying. And we should be able to stop them.

Michael Murphy To Discuss Chemical Spraying On Viewpoints Radio

<http://www.newsjunkyjournal.com/michael-murphy-to-discuss-chemical-spraying-on-viewpoints-radio/2512691/>

At midnight On Saturday evenings Kate Valentine broadcasts live on AM 970 The Apple on the Kate Valentine radio production Viewpoints.

Michael Murphy joined Ms. Valentine for the full hour for a discussion on chemtrail spraying, geo engineering and climate control. This broadcast can now be heard in it's entirety at:

[http://www.atlanticcoastufos.com/past\\_shows](http://www.atlanticcoastufos.com/past_shows)

or on podcast free from the Viewpoints website

or from iTunes.

Michael Murphy whose film, "What In The World Are They Spraying?", has been instrumental in waking up millions of people around the world to the existence of chemtrails.

Though the existence of these spraying programs are blatantly denied, Mr. Murphy set out to prove "these programs are real and happening and they are a threat to human health and ecology".

Kate Valentine impressed with Micheal Murphy's research/data asked "who allows them to do this"?

Mr. Murphy stated "it is against human rights, so nobody does, although they are pushing for legislation they are definitely crimes against nature and humanity".

Kate Valentine stated "this is not a small operation" which Mr. Murphy replied "no, absolutely, this is a global operation".

Michael Murphy went on to say "there appears to be some political affiliation", though, unsure what it is, urges Geo Engineers to call for global regulation.

Kate Valentine seemingly aghast by the idea of systematic high-altitude releases of chemical substances, not found in ordinary contrails, being sprayed upon the human population and earth asked Michael Murphy "why would anyone would want to do this?"

Mr. Murphy's response- "power, having the ability to control the weather yields enormous power, weather warfare".

Mr. Murphy went on to say that

"Geo Engineering is a well funded science which appears to be a New World Order Agenda",

mentioning the involvement of the Rothschilds, Rockefellors, Bill Gates as well as certain factions of the Government. ???

More information on Chemtrails and Michael Murphy's research and film can be found on the Viewpoints website and awareness is the goal.

Listeners are encouraged to review the information and draw their own conclusions.

Viewpoints, broadcasts live Saturday evenings at 12 midnight on AM 970 The Apple to the NYC and Tri-State area. Viewpoints can also be heard streaming live online from

<http://www.atlanticcoastufos.com/viewpoints/index>

Listeners can join in the conversation by posting their viewpoint or questions on the comments page of the website or by calling the radio station at: 1-866-970-9622 during the show 12 midnight to 1am (EST).

Viewpoints, a Kate Valentine radio production is an interactive discussion forum covering a wide variety of topics.

Exploring the unknown Kate Valentine brings forth accomplished professionals; scientists, military personnel, authors, researchers and individuals to discuss important topics which ordinarily do not receive adequate media coverage.

<http://www.geoengineeringwatch.org/html/gates.html>

Its well known now by those trying to stop the chemtrails, that the aluminum resistant gene in our crops is designed to allow synthetic agriculture to flourish under chemtrail operations, while the natural world and heirloom native seeds are destroyed by those same operations. In so doing, Monsanto, Bill Gates, Cargill and other top transnational corporations and the elite who own them, are able to destroy our self sufficient goals and instead chains the world to their tit.

Here is some more information, just given to geoengineeringwatch by Michael Murphy in his quest to break the truth out.

- Aluminum resistant gene patent # 7582809
- Patent granted on September 1, 2009
- Patent developed at the Robert W. Holley Center for Agricultural Health at Cornell University in Ithaca, NY.
- Leon Kochian and Jurandir Vieira de Magalhaes are the primary inventors/ researchers
- Patent assigned to US Department of Agriculture and Brazilian Enterprise for Agricultural Research
- According to Cornell University Chronicle Online, the research project was supported in part by the McKnight Foundation Collaborative Crop Research Program, the Generation Challenge Program, the National Science Foundation and the USDA.

The Bill and Melinda Gates Foundation is a contributor to both the McKnight Foundation and the Generation Challenge Program.

## TARGETED SMART DUST- HOW IT WORKS

In order to spontaneously assemble and orient the micron-sized porous Si “smart dust,” we couple chemical modification with the electrochemical machining process used to prepare the nanostructures.

The process involves two steps, (see the scheme below).

In the first step, a porous photonic structure is produced by etching silicon with an electrochemical machining process. This step imparts a highly reflective and specific color-code to the material that acts like an address, or identifying bar-code, for the particles.

The second step involves chemically modifying the porous silicon photonic structure so that it will find and stick to the desired target.

Debt Deal: Both Sides Included Late-Stage Changes

<http://news.firedoglake.com/2011/07/23/debt-deal-both-sides-included-late-stage-changes/>

So what happens now?

There's a meeting happening at this hour at the White House, which began at 11am ET.

McConnell-Reid, which matches \$1.3-\$1.5 trillion in spending cuts, all on the discretionary side, to a complicated system where Obama takes all the responsibility for increasing the debt limit, seems like the best available option at this point.

There's also renewed discussion of a clean debt limit increase, which Rep. Peter Welch touted yesterday.

Even Grover Norquist, holder of the infamous anti-tax pledges, conceded that the debt limit must be increased and called on his party to allow it, and take the issue into the election.

I do think you'll see the pressure ratchet up over the next week.

This morning, Boehner spokesman Michael Steel reiterated the House GOP position that they must have a dollar-for-dollar connection between the debt limit increase and any deficit reduction.

[....]

This would seem to suggest that Boehner will take up the agreed \$1.2 trillion in spending cuts and raise the debt limit by the same amount, daring the President to veto.

I don't think there is a clear endgame, to be honest.

<http://politics.blogs.foxnews.com/2011/07/23/weekend-hitchhikers-guide-debt-ceiling>

Remember, during the S&P meeting convened Thursday by Rep. Nan Hayworth, R-N.Y, the credit agency folks warned they could downgrade before August 2 and even if there is a deal.

<http://notsosmartdust.blogspot.com/2011/05/smart-dust-defending-land.html>

Summation and Conclusions

Nanotechnology investors, military, academia, and industry are the partners of the global rise in the many different benefits for the utilization of nanotechnology.

Through this rise of phenomenal technology under the auspices of benefiting mankind and the environment, one can only pray to a higher being that through its release into the environment, planned or accidental, remedies will be made for its antidote upon exposure.

The use of silane, alone, as a tracking compound with smart dust and/or antimicrobial coating on nanoparticles, can be antidoted in the human body with the use of Opaline Dry Oxy Granules and Dr. Willard's Catalytic Altered Water. (35)

It will decompose and the silicon/silica by-products will be released from the lymph nodes.

Silicon nanotubes react with variable pH's, which can be further mediated with the application of alkalized water as found in Kangen/Enigic alkalizing water products.

Looking again at Figure 10-10, one can only wonder

who is the true mastermind

a mastermind who created something that can be nearly invisible to the naked eye, yet become our greatest national security threat, as it can cause the death of mankind with a simple flip of a switch, as nanotechnology advances into the realms of synthetic biology and nanovectored gene delivery systems.

Time will only tell us after She has run through the universe with Eternity, holding their hands together, as they are looking over their shoulders at Mother Earth and her children, saying, "Where Have They All Gone?"

Hildegard Staninger, Ph.D., RIET-1

Industrial Toxicologist/IH & Doctor of Integrative Medicine

© December 27, 2009

[Who is the true MasterMind? When I read that, I immediately thought of Dan Burisch Crain. Don't know. But I do know he could help if he chose to.]

Owning the Weather by 2025 calls for continuous chemtrails.

The New World Order needs you to be sick so they can rescue you and you will be grateful.

They are spreading virus, pneumonia, toxic gels and powders, mycoplasma, metal poisoning, yeast, mold, fungus, plant and animal diseases, worms, blood, fibers, smart dust, robots, morgellons, criminal human testing.

Another thought on insect vectoring: This technology can reside in the fluids of insects.

When we are bitten by them, the technology transfers with the DNA/RNA from the insect, and then attempts reconstruction (perhaps of the venom) within the human host.

This would explain the DNA of insects and plants that have been isolated in infected humans.

Mt 13:44-52 or 13:44-46

Gospel

Jesus said to his disciples:

The kingdom of heaven is like a treasure buried in a field,  
which a person finds and hides again,  
and out of joy goes and sells all that he has and buys that field.

Again, the kingdom of heaven is like a merchant  
searching for fine pearls.

When he finds a pearl of great price,  
he goes and sells all that he has and buys it.

CHEMTRAILS AND MORGELLONS – IT'S WORSE THAN YOU THOUGHT!

By Citizen Researcher Blue

<http://www.morgellonsexposed.com/Chemtrails&Morgellons.htm>

About three years ago, I was showing my aerosol spraying photos and some others I had gotten from the Internet to the owner of a local video store.

A man at the counter became interested and looked at my collection.

He immediately recognized some of the aircraft in the photos as C-130 cargo planes.

He seemed concerned and said he would investigate.

The store owner told me he was her brother and that if anyone could find out, he could, as he was retired military intelligence.

About four months later I asked her if he had learned anything, and this was what she recounted:

He said that indeed the spraying was quite toxic, and he had been present at a confrontation by the Navaho Nation with the EPA.

The EPA contended that everything was okay until the Navahos presented their evidence to the contrary, which was quite compelling.

The EPA closed up its books and left without another word.

I asked her brother to call me with more details, but two weeks later she closed her store and left too.

I have not been able to verify this story since.

It's not that I'm opposed to being "governed," but it would seem the only government I accept anymore is that of my Creator.

I will not be governed by the unelected, nor the elected who either lie or are woefully uninformed.

And where is the priesthood? Where is the Pope? The only hope I have right now is Petraeus heading the C.I.A.

The enormity of what we are facing suggests we may never be told everything. I don't want to know everything. I just want these enemy tankers grounded. I don't want GMO food. I want the profit taken out of the illegal drug trade.

Heavenly Father, In Jesus Name, protect your humble servants from Your Merciless Enemy. So Be It!

<http://forte.delfi.ee/news/teadus/lennukite-taevasse-maalitud-kondensjaljed-ohutavad-vandenouteooriaid.d?id=49849961>

These are aircraft condensation trails, or kondensjäljed (Lad Ci / cc, or tractus Ci / Cc aviaticus), which can be seen behind the airplane, very often, but not always – some days not at all noticeable, and sometimes they fade away quickly.

However, sometimes lasting for hours and may even develop further, covering the whole sky kiudkihtpilvedega and fibers.

### Conspiracy theory

Kondensjäljed Estonia has recently received attention, because there are the enthusiasts who think they are related to a conspiracy (see chemtrail), namely – kliimamanipulatsiooniga governments.

It is said that Estonia's accession to NATO, captured with the jury into a container.

Kliimamanipulatsioonidest such a theory, one manifestation of the expanding and stripes covering the sky behind the aircraft, began in 1996th in the U.S. Air Force aerial spraying was charged with the mysterious substance, which came back abnormal kondensjäljed machines.

Now it has a widespread conspiracy theorists and the official explanations do not satisfy.

Dubious, to say keemiajälgedeks are those that can not diffuse, but sustained and extended hours.

Uncovering a conspiracy around the world gathered a lot of video and photographic material.

[The moral of the story – Run like hell from NATO!]

<http://stanthonyswalnuttree.blogspot.com/2010/02/acedia.html>

"This holy man (Francis of Assisi) insisted that spiritual joy was an infallible remedy against a thousand snares and tricks of the enemy. He used to say:

'The devil is most delighted when he can steal the joy of spirit from a servant of God.

He carries dust which he tries to throw into the tiniest openings of the conscience, to dirty a clear mind and a clean life.

But if spiritual joy fills the heart; the serpent casts its poison in vain.

The devils cannot harm a servant of Christ when they see him filled with holy cheerfulness.

But when the spirit is teary-eyed, feeling abandoned and sad, it will easily be swallowed up in sorrow, or else be carried away toward empty enjoyment.'

The saint therefore always strove to keep a joyful heart, to preserve the anointing of the spirit and the oil of gladness.

He avoided very carefully the dangerous disease of acedia, so that when he felt even a little of it slipping into his heart, he quickly rushed to prayer.

For he used to say:

'When a servant of God gets disturbed about something, as often happens, he must get up at once to pray and remain before the most High Father until he gives back to him the joy of his salvation.

But if he delays, staying in sadness, that Babylonian sickness will grow and, unless scrubbed with tears, it will produce in the heart permanent rust.'"

(Chap. LXXXVIII, The Remembrance of the Desire of a Soul by Thomas of Celano)

News from the Left Banke

<http://news.firedoglake.com/2011/07/25/republicans-wary-of-accepting-debt-limit-deal-that-gives-them-everything-they-want/>

So Reid is offering spending cuts, all of which were either agreed to in the bipartisan Biden talks, or passed by the House in their own budget.

He's offering them without any revenue increases.

And the total deficit reduction is more than the proposed increase in the debt limit.

So when they reject this too, will we still see media articles about how both sides are squabbling?

...To be clear, the reason here is that Republicans don't give a crap about the deficit.

They care about low taxes, and this deal doesn't lock in the lower Bush tax cut rates.

Secondarily, they also care about shrinking government, particularly the social safety net, and this deal doesn't touch that either.

Incidentally, on the war spending, as I said, it's perfectly legitimate from a scoring standpoint.

I also think it's on balance a good thing to force through the budgeting process a cap on Afghanistan and Iraq war spending.

It reinforces the position that we're leaving these countries, and may make supplementals a bigger climb.

I, for one, would like to hear Dr. Jasser's thoughts on the domestic terror attack in Norway.

+++

[http://www.aifdemocracy.org/library/Press\\_Release\\_for\\_AILC\\_Response\\_to\\_NSCT.pdf](http://www.aifdemocracy.org/library/Press_Release_for_AILC_Response_to_NSCT.pdf)

—The current NSCT is better than its previous iteration, in that it correctly identifies ideology—specifically, a distorted interpretation of Islam—as a key enabling factor of al-Qa'ida-style terrorism,|| said Dr. M. Zuhdi Jasser, AILC member. —However, in order to actually counter this ideology, our government must take the additional step of identifying it for what it is: a militant form of political Islam, or Islamism.' Although the NSCT uses the term ideology 20 times within a 17 page document, its failure to identify the exact nature of this ideology suggests a continued unwillingness to confront the root cause of terrorism.||

Tomorrow, Tuesday, I will put up new post at <http://rosettasisister.wordpress.com> which includes the following:

+++

from

Edgar Cayce and the Kabbalah: A Resource for Soulful Living

[books.google.com/](http://books.google.com/)

John Van Auken – 2010 – Religion – 302 pages

Page 27

... The key element is the influence of the spirit within them and the dark thoughts that make them so dangerous and coldhearted versus the disposition of those that keep on keeping on in ways that are constructive rather than destructive, despite the surrounding circumstances.

Cayce's readings acknowledge the "warring" that often occurs within

Page 28

humans, between the unseen realms and the seen. (EC 281-7) His readings even call this war the true Armageddon (EC 3976-15, from Revelation 16:16), a battle within each soul between the energies and thoughts of dark, destructive influences and the energies and thoughts of illuminating, constructive influences.

Even the Light-bearing souls have to struggle to maintain their hold on the Light. It is difficult to be pure channels of the Light in this life, in our families and workplaces and in our own hearts and minds. It is a terrible battle between selfishness, contention, and faultfinding versus loving care for others and for self, and valuing the light of truth, hope, and love.

Cayce's readings warn the Children of God, the Children of the Law of One (as he often referred to them), to seek and maintain their awareness of the Divine Forces, for these will protect them from dark motivations within themselves and dark intentions in others.

As experienced my many, in opening self to the unseen forces about us, yet warred ever by those influences save when in the presence of His [God's] influence, then as the forces are raised in self know – without doubt – there are His protecting influences, able, willing, capable, and will aid in that direction in which such vibrations, such influences, are raised to those individuals to whom they be directed, even by the spoken word; for, as is seen, as is understood by many, by most, the unseen forces are the active forces, the active principles." EC 281-7

To avoid the influence of evil and selfishness, even the best among us must seek the protection and assistance of the Divine's influence, that consciousness of the Divine with us in our daily lives. "The spirit is indeed willing, but the flesh is weak," taught the masterful Jewish teacher Jesus, who faced Satan's temptations and walked away, free from the temptations. (Matthew 26:41 and Mark 1:3) And when we fail to maintain our mindfulness of the Divine and the higher bodily vibrations of the Divine awakened within us, we must get up and try again, never condemning ourselves or limiting the Divine's ability to redeem us, to cleanse us, and to make us stronger. Cayce taught:

Page 29

Be not faint hearted because failure seems to be in thy way, or that self falters – but "how many times shall I forgive, or ask forgiveness – seven times?" "Yea, seventy times seven!" or, "not how I faltered, but did I seek His face again?" "Could ye not watch with me one hour?" The man crying out! "Sleep on, now, and take thy rest, for the hour cometh when I shall be even alone." So we find the changes, the weaknesses in the flesh – yet he that seeks shall find, and as oft as ye knock will the answer come. Seek to be one with Him [God], in body, in mind, in soul! EC 281-7

07 25 11 mon three tankers spraying three diff locations

[http://www.4shared.com/folder/0fXPNDvy/07\\_25\\_11\\_mon\\_three\\_tankers\\_spr.html](http://www.4shared.com/folder/0fXPNDvy/07_25_11_mon_three_tankers_spr.html)

As always, you have my permission to copy and distribute any image of mine I post at RosettaSister or BlessedIsTruth.

Rose

P.S. In the near future, I'll post folder links for ALL chem trail images I've posted so far. Obviously, some are more "obvious" than others. But I thought important for the record.

Feel free to visit my new blog folks.

I just noticed this one on the same page of Google in going to my own blog, The Blogathon Philebuster with authorthat.wordpress.com.

Yes evil wishes to take over the mind by the nano receptor array using your own body's electrical charge and it's own minerals.

This is eventually to block the pineal gland.

To accomplish this in those who have weak belief or none, it is another means to separate man from the most high God and make us just like them.

It is an intensity of the creation of the firmament in the spiritual warfare which as evidenced by morgellons has now moved from the spiritual dimensions into the energetic dimensions.

WOW...What are these people thinking? I had a fiber growing out of an open wound, 2 years ago. I know I'm chipped. My life is turned upside-down. Bio-chemical warfare? This is not natural. This fake hair stuff does the hair grow? And I suppose that is suppose to act as an antenna? My god, my highest commander... I pray we find the cure. Be safe...

"I had a fiber growing out of an open wound, 2 years ago."

Elizabeth,

Even after all this time, I'm still not sure who is right about Morgellons.

I'm so sorry, I really do know how hard it is to have to live w an ailment society is telling you you don't really have!

Arrogance beyond the pale.

The sooner we realize we have only each other to turn to, the better.

May I make 2 suggestions?

And I am getting some relief from ingesting Coconut Oil.

Coconut oil is antiviral, antifungal (kills yeast too) and antibacterial. Coconut oil was attacked by the oil industry as being an "artery clogger." It was mainly the American Soybean Association (ASA) that began the attack.

Britain, Canada, USA, Australia, were all given parts of the puzzel from the papers of Tesla, so all would need to cooperate ? The same power is still in control of it all. The most powerful weapon in creation. Psychoenergetics, otherwise called Psycotronics....Some are sensitive....everyone is becoming increasingly sensitive to the electromagnetic plasma pollution. This is the means for separating humanity from their own nature. Extra calcium can also calcify the pineal gland. You no longer get connection to your spirit but can be influenced by the technology instead, even if only from spaced repition, the mother of all learning. You get back what your mind is on, especially when backed up by emotion which magnetic spin resonance can do. I have been attacked in this way & recognized it. This range of frequencies will generate the emotion of fear. Note that the Canadian secret service was part of an experiment with 500,000 people. Not so strange, since I recall as a young boy, experiencing the effects of this technology as I have never been able to explain how I could get the symptoms of a million needles all over me, in just an overnight fever type of experience. It should have lasted more than over night ! This happened in 1965. These sensations can be enduced. As of this writing, the effects have been used to kill my mother, attack me for a second time, and possibly cause my brother & his family to experience heart attack symptoms. This blog is just great, and we all need to thank Rose for doing this work. A great friend of mine discovered the welsbach seeding, Dr Michael Castle. He invited others like Hildegard Staninger, ND Gwen Scott & Will Thomas and Cliff Carnicom. See also <http://www.authorthat.wordpress.com> The Blogathon Philabuster.
